Reasons For Allowance

The following is an examiner's statement of reasons for allowance: The examiner has found claims 1, 5, 8-12, 14-17, 20, 24-28, 30-35, and 41-109 to be unobvious over the prior art of record and therefore to be allowable over the prior art of record. The present invention relates to boronic acid compounds of a given formula and their method of preparation. The very relevant prior art documents (US 5,106,948, US 5,169,841) to this invention discloses similar boronic acid compounds of a given formula and their method of preparation.

However, though the compounds of the present invention are, in terms of their general structure, similar to those claimed in the prior art document, they possess structural differences (like amino acids and sugar) that are unobvious to those of the prior art. Also, their methods of preparation are different and unobvious to those of the prior art. Furthermore, the provisional double patenting rejection of the prior office action, which was made over applicant's copending Application No. 10056563, is presently overcome or rendered moot, due to applicant's amendments and cancellation of claims in the instant invention and, also in applicant's copending Application No. 10056563.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael C. Henry whose telephone number is 703 308-7307.
